.NET ENGINEERING PORTFOLIO

Enterprise web apps on .NET 10, and safe upgrades for the .NET apps you already run

Eight .NET systems in production across healthcare, finance, manufacturing, dairy and capital projects, built and supported by one team that also handles SAP integration and shop-floor hardware.

WHAT WE DO

Two ways we help

.NET MODERNIZATION

Move to .NET 10 LTS, safely

- Free 30-minute Upgrade Readiness Check
- Written report on dependencies, breaking changes and risk
- Upgrade with automated tests and a rollback plan
- Older .NET Framework apps moved to ASP.NET Core in planned stages
- 30 days of hypercare after go-live

CUSTOM ENTERPRISE APPS

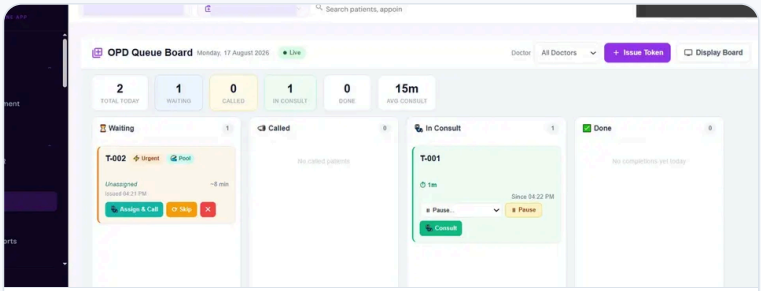

Built around how your business runs

- Portals, approval workflows, quality and compliance systems
- MIS dashboards with role-based access
- Integration with SAP, bank gateways, weighbridges and IoT devices
- Email and WhatsApp alerts built in
- Long-term AMC: we support what we build

PORTFOLIO

Eight .NET systems in production

Clients are described by industry only, under our confidentiality policy.

HEALTHCARE · MULTI-TENANT SAAS

Dent-O-Care clinic management

Records, appointments, GST billing and recalls for dental clinics and multi-branch chains, with offline-first sync.

.NET 10 · MudBlazor · EF Core · SQL Server · Multi-tenant RBAC · Azure

Outcome: 35% fewer no-shows; records found in under 10 seconds

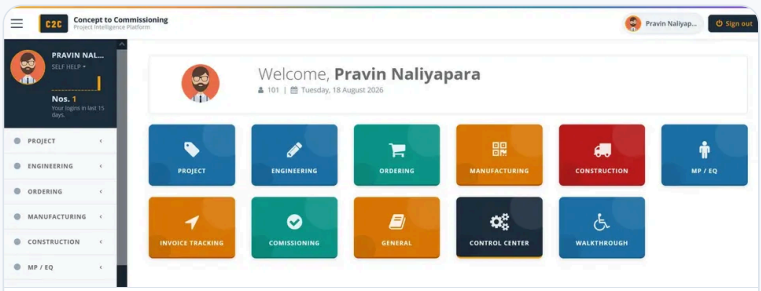

FINANCE & MANUFACTURING · INTEGRATION

Bank-to-SAP integration

Decrypts bank statement and payment files and posts them into SAP FI/CO automatically, with retries and a full audit trail.

.NET · Windows Service · PGP (BouncyCastle) · SAP RFC/BAPI · Polly · SQL Server

Outcome: 500+ transactions a day, zero manual reconciliation

INFRASTRUCTURE & CAPITAL PROJECTS · PLATFORM

C2C: Concept to Commissioning

One system of record from bidding to commissioning, synced with SAP WBS, document management and the project master.

Blazor · SQL Server · SAP integration · ClosedXML · Automated alerts

Outcome: One SAP-synced record from concept to handover

MANUFACTURING · QUALITY ASSURANCE

Quality check & control system

Digital test cards, calibration reminders and approval workflows for a heavy electrical equipment manufacturer.

ASP.NET Core · Blazor · SQL Server · Repository pattern · RBAC

Outcome: No missed calibration dates; audit-ready MIS

RS-232 → SAP MM

MANUFACTURING & LOGISTICS · HARDWARE INTEGRATION

Weighbridge management

Reads weight straight from the weighbridge over RS-232, prints tamper-proof slips and posts to SAP MM.

ASP.NET Core · C# · SQL Server · RS-232 · Crystal Reports · WinForms

Outcome: From 8 minutes to under 90 seconds per vehicle

MilkMitra

DAIRY · INDUSTRIAL IOT

MilkMitra cloud platform

The .NET platform behind 24/7 Bulk Milk Cooler monitoring: device data, instant alerts and role-based dashboards.

ASP.NET Core · SQL Server · ESP32 devices · OTA updates · SSL

Outcome: Live at dugdhasarathi.ai.in

Marketplace

CONSTRUCTION & HEAVY EQUIPMENT · PUBLIC MARKETPLACE

Heavy-equipment marketplace

A live buy, sell, rent and service marketplace with a bot-proof enquiry pipeline that alerts the owner on email and WhatsApp within seconds.

.NET 10 MVC · EF Core · FluentValidation · reCAPTCHA v3 · WhatsApp API · Serilog · Docker

Outcome: Every lead captured with a reference number

.NET 8 → .NET 10

OUR OWN PLATFORM · MODERNIZATION

pushtimargit.com

Our content-managed company website, upgraded from .NET 8 to .NET 10 LTS: the same upgrade path we run for clients.

.NET 10 MVC · EF Core migrations · CMS · MailKit · reCAPTCHA v3 · Rate limiting · GitHub Actions

Outcome: On .NET 10 LTS, supported until November 2028

ENGAGEMENT

How a project runs

1

Discover

A free 30-minute call or code review: what the app does, what it connects to, and what is at risk.

2

Fixed-scope plan

Scope, price and timeline in writing, with success criteria you can check.

3

Build in sprints

A working demo on your own data every week.

4

Go live and support

Deployment with a rollback plan, 30 days of hypercare, then AMC.

STACK

Technology we use in production

.NET 10 (LTS) · ASP.NET Core MVC & Web API · Blazor / MudBlazor · Entity Framework Core · SQL Server · Polly · FluentValidation · Serilog · MailKit · Docker · GitHub Actions · Azure · SAP RFC/BAPI · PGP encryption · RS-232 & ESP32 integration · WhatsApp Business API

> *"The QA Web Application meets our Quality team's expectations, with key requirements such as document upload, calibration due-date tracking, user feedback enhancements, and role-based approval workflows successfully implemented."*

QA Head · Heavy electrical equipment manufacturer

.NET 8 AND .NET 9 SUPPORT ENDED ON 10 NOVEMBER 2026

Book a free 30-minute .NET Upgrade Readiness Check

Or tell us about the application you need built. We reply within one working day.
